

Selection Process for Tri-State Quota for Eastern Region FIS Races

JI, 2 Chair , Mike Kemmer

Only athletes who have submitted a Quota Request Form will be considered for selection. Requests are due three weeks prior to competition date .At this time the Tri-State office will generate and publish a ranking list for a particular event or series. (Located on the Tri-State Message Board)

This ranking list will be in two parts. First will be a priority list filled according to Tri- State rules, second will be all other requests. Late requests will go at the end of the second group. All ranking will be by NTSM using SL and GS USSA points.

Priority lists will be established by athletes achieving a point on a established point cut off in at least one event. They will remain constant throughout the season. Athletes will move into these lists as soon as they have results

All athletes within an age group are ranked NTSM

After the first posting of the ranking list athletes who decide not to attend the competition are expected to withdraw their names as soon as possible to allow lower ranked athletes to move up the list. Athletes who abuse this system are subject to sanction. Athletes whose names are not pulled from the quota 24 hrs. prior to the team captains meeting and become pulls from the board or DNS at the competition **will be** sanctioned unless the absence is due to “force majeure”. The Tri-State office must make every effort to maintain communications during the critical 48 hours prior to the team captains meeting.
