CALL FOR GRADUATE STUDENT PAPERS

GRADUATE STUDENTS, full-time and part-time, are invited to present papers on topics in mathematics, statistics, or computer science. Graduate students at any stage of their graduate work are welcome to give a presentation during the session. The presentations, approximately fifteen (15) minutes in length, can be given on expository work, research projects, variations on intriguing proofs, interesting problems in mathematics, work derived from periodicals, employment experiences, summer/independent research experiences, or parts of or work related to Master's or Doctoral research projects.

The Graduate Student Paper Session, to be held on Saturday, November 20, 2004 at 9:00 am, will be followed by the Graduate Student Reception at 10:00 am. Graduate Students giving presentations during the session as well as their faculty sponsors will be invited to attend the reception. The Graduate Student Paper Session and the Graduate Student Reception are part of the NES/MAA 2004 Fall Meeting to be held on Friday, November 19th and Saturday, November 20th at Worcester Polytechnic Institute (WPI) in Worcester, MA; please visit http://users.wpi.edu/~sweekes/NESMAA/ for more information about the meeting.

Abstracts should be submitted via email in MS Word or plain text files; please do not submit abstracts using LaTeX or other typesetting programs. Abstracts should be limited to 100 words and should be appropriate for a general mathematics audience; please avoid using mathematical symbols in the abstract.

Interested graduate students should submit an abstract together with full name, college/university affiliation, full contact information (phone number, fax number, and email address), audio-visual/technology needs for the presentation, the name of a faculty sponsor, and full contact information for the faculty sponsor to
