We have a website that is running locally since hosting it on the internet costs money. This means that we run the website on our laptop only, and it is not available online for others. We will present using our locally hosted website on our laptop. Below is our satirized Privacy Policy, the main written component of our satire.

Key:

Reduction

Reductio ad absurdum

Imagery

Incongruity

Allusion

Situational Irony

Faux Pathos

Verbal Irony

We at Totally Real Ram Downloads for Free, LLC are legally obligated to disclose the information we collect from you. The following Privacy Policy details what information we collect, how it is used, and to which parties it is shared with.

1. Why We Collect Your Data

   We collect your data in order to improve our platform. We reserve the right to sell your data to third parties for targeted advertising purposes. We may use your data to tailor our services to your needs, in order to provide a better product for you and similar users.

2. Information We Collect

   We collect a lot of data to create targeted advertising. The following data is what we collect.

   - Your first and last name.
   - Apps you use outside of this platform.
   - Purchases you have made on third party applications.
   - Your location down to the nanometer.
   - Your education level.
   - The name of the street your grandmother lives on.

- Your blood type.
- Everything about your third cousin once removed.
- Your dog's name.
- All the places you've traveled to.
- All of your past interactions with other people.
- The dreams you had within the last 90 days.
- The nightmares you had within the last 90 days.
- Your Allergies.
- Your Fingerprints (all 10 of them).
- Your Face.
- All the past locations you've lived in.
- Your roommate information.
- Your criminal history(including juvie).
- Your ex's number.
- That one person you met at the airport in 2017 that you had a nice chat with.

3. How We Use Your Data

We will collect your data and spend it on improving our product. It goes towards funding improvements for our platforms such as training our large language models, selling to third party advertisers, and funding our useless board of management as we have 10 layers of management that all belong to Temu.

4. Data Retention

We hold the right to hold your data for an unspecified period of time. After we sell it to everyone we can, it will not be deleted and it will be stored as long as possible. If you are a celebrity, we will print out your data and keep it in an unlocked safe forever as it means we can infinitely profit off of it (we believe everyone is a celebrity in their own way).

5. Third-Party Access

Parties that have access to your data include:

- The government
- Third party advertisers
- Your neighbor Shannon
- Foreign governments such as the Independent Republic of Solvanistica

6. Security Measures

Your data is stored unencrypted on unsecured servers that are accessible for other internet users. It is not sent with industry-standard AES encryption across our unsecured networks. Our networks occasionally may employ carrier pigeons to transfer your data between our servers, and we are not liable for the risk of the pigeon dropping your data or possibly eating it.

7. Children's Privacy

We value your child's privacy. That is why we will not collect data on children. However, the second the child turns 13, we will treat them as adults. We will also take data from children who put in fake ages, without placing any kind of verification.

8. Changes To This Policy

If any future laws prohibit data collection, we will abide by it, however, we will keep past data stored for two decades. If time travel does end up existing, we will know all about your past and future self. This will include different timelines as well. This also applies to interdimensional travel; we hold the right to know about your parallel universe self. On top of this, we also hold the right to know your whereabouts when you use teleportation.

❑ By checking this box, you acknowledge that you have read and understood the privacy policy (spoiler: you haven't). Please check this box and accept all cookies to help us improve our service, as our service provides RAM to over 1,000,000 children in poverty who cannot access RAM otherwise*.
