Motivations

- To provide a way in which volunteers can easily find organizations to contribute to depending on factors such as interests, locations, hours, etc.
- To provide a way in which organizations can create posts and publish information about their organization to get interest

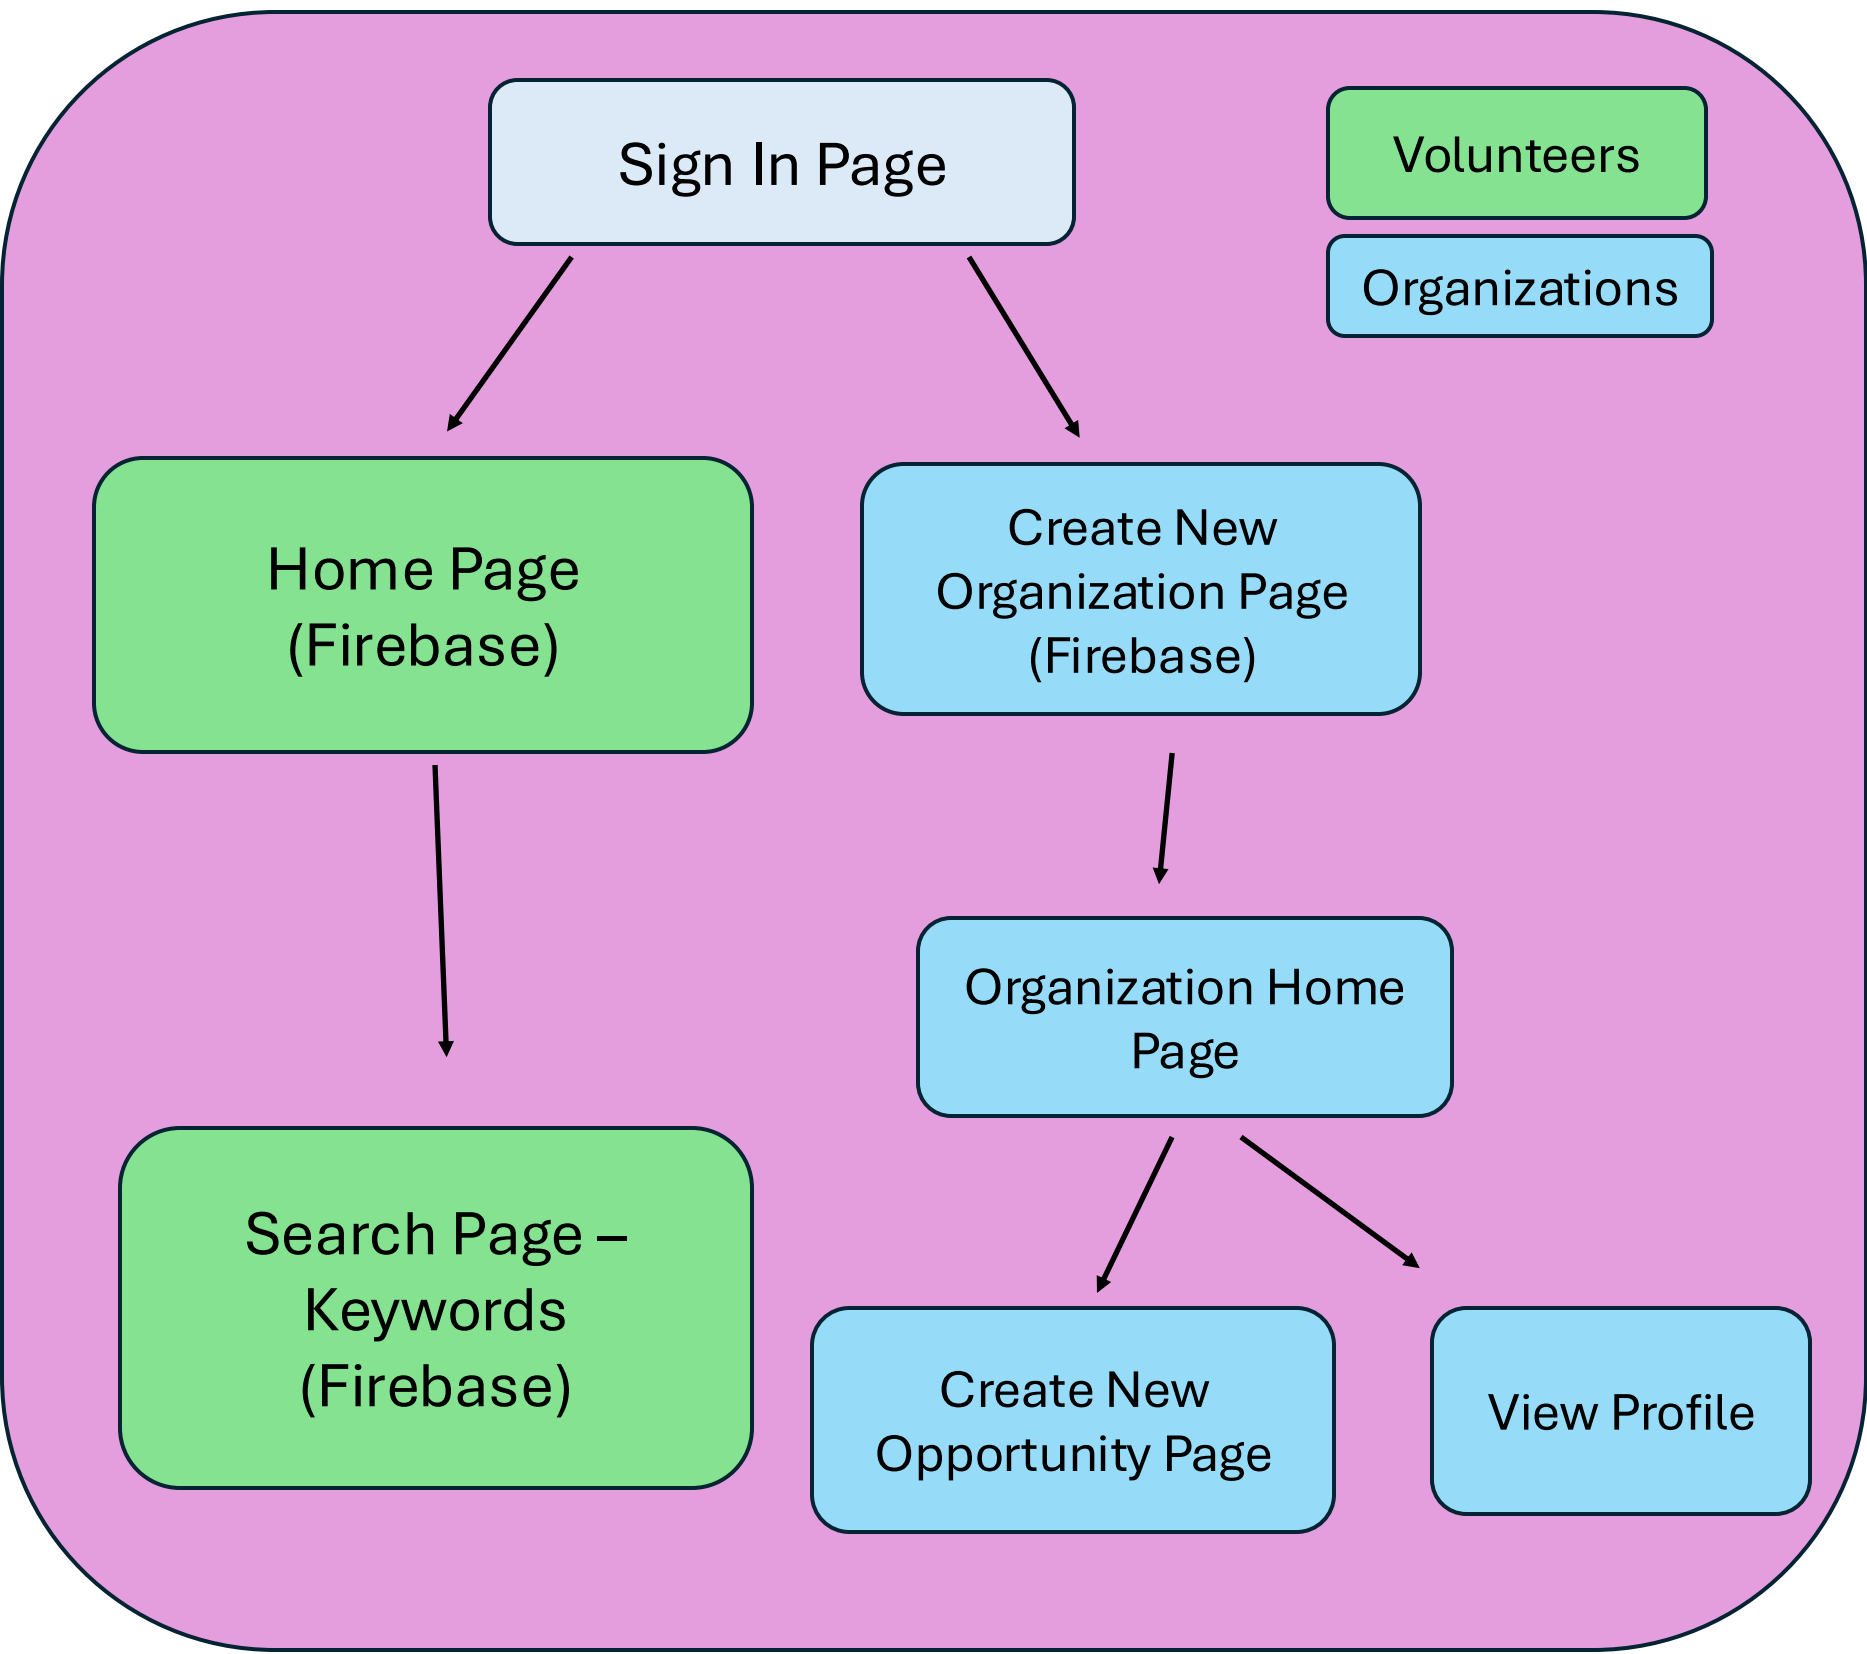

Target Audience

- Volunteers that want to find organizations **AND**
- Organizations that want to push out information to get volunteers

Software/Tools

Structural Diagram

Future Steps

- Providing a way in which users and organizations can communicate on the app
- Creating a more secure authentication system for organizations and users to save preferences

Competitors

Signup Genius

Helps organize volunteering events for organizations. Great for surveying interest.

VolunteerHub

Helps organizations streamline volunteer recruitment. Helpful in gaining support.

LinkedIn

Helps organizations put out job opportunities for interest parties. Provides effective ways for organizations and users to communicate with each other.
