

+AidReady

First Aid Learning for Everyone

The Herd: Isaac Moore, Chris Xu, Emmanuel Yu

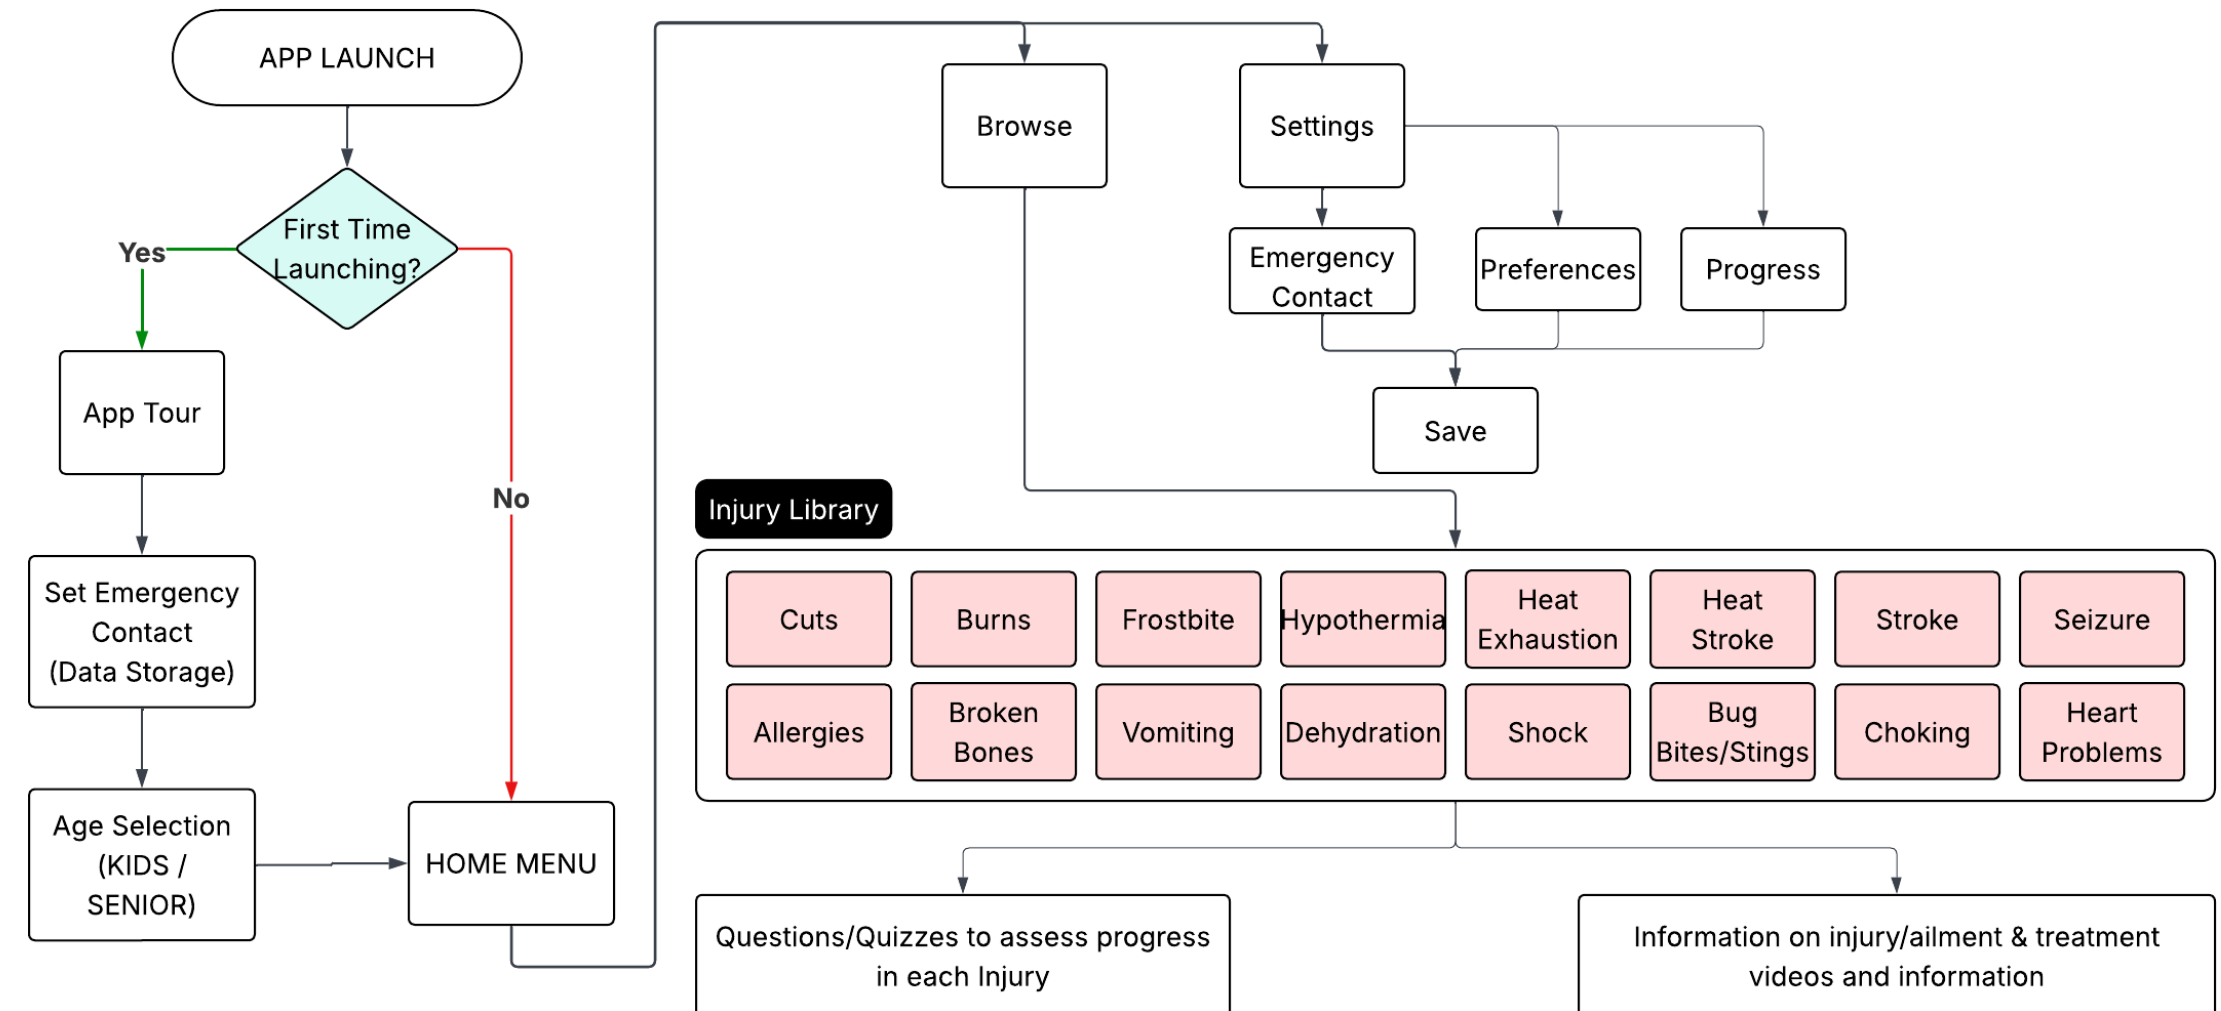

Advisor: Mrs. Taricco

OUR MOTIVATION

Most first aid apps use long paragraphs & complex language, leaving children, seniors, and people with disabilities unable to act in emergencies.

Only 18% of people feel confident performing CPR. Effective preparation tools must be accessible to ALL communities.

APP ARCHITECTURE

OUR SOLUTION

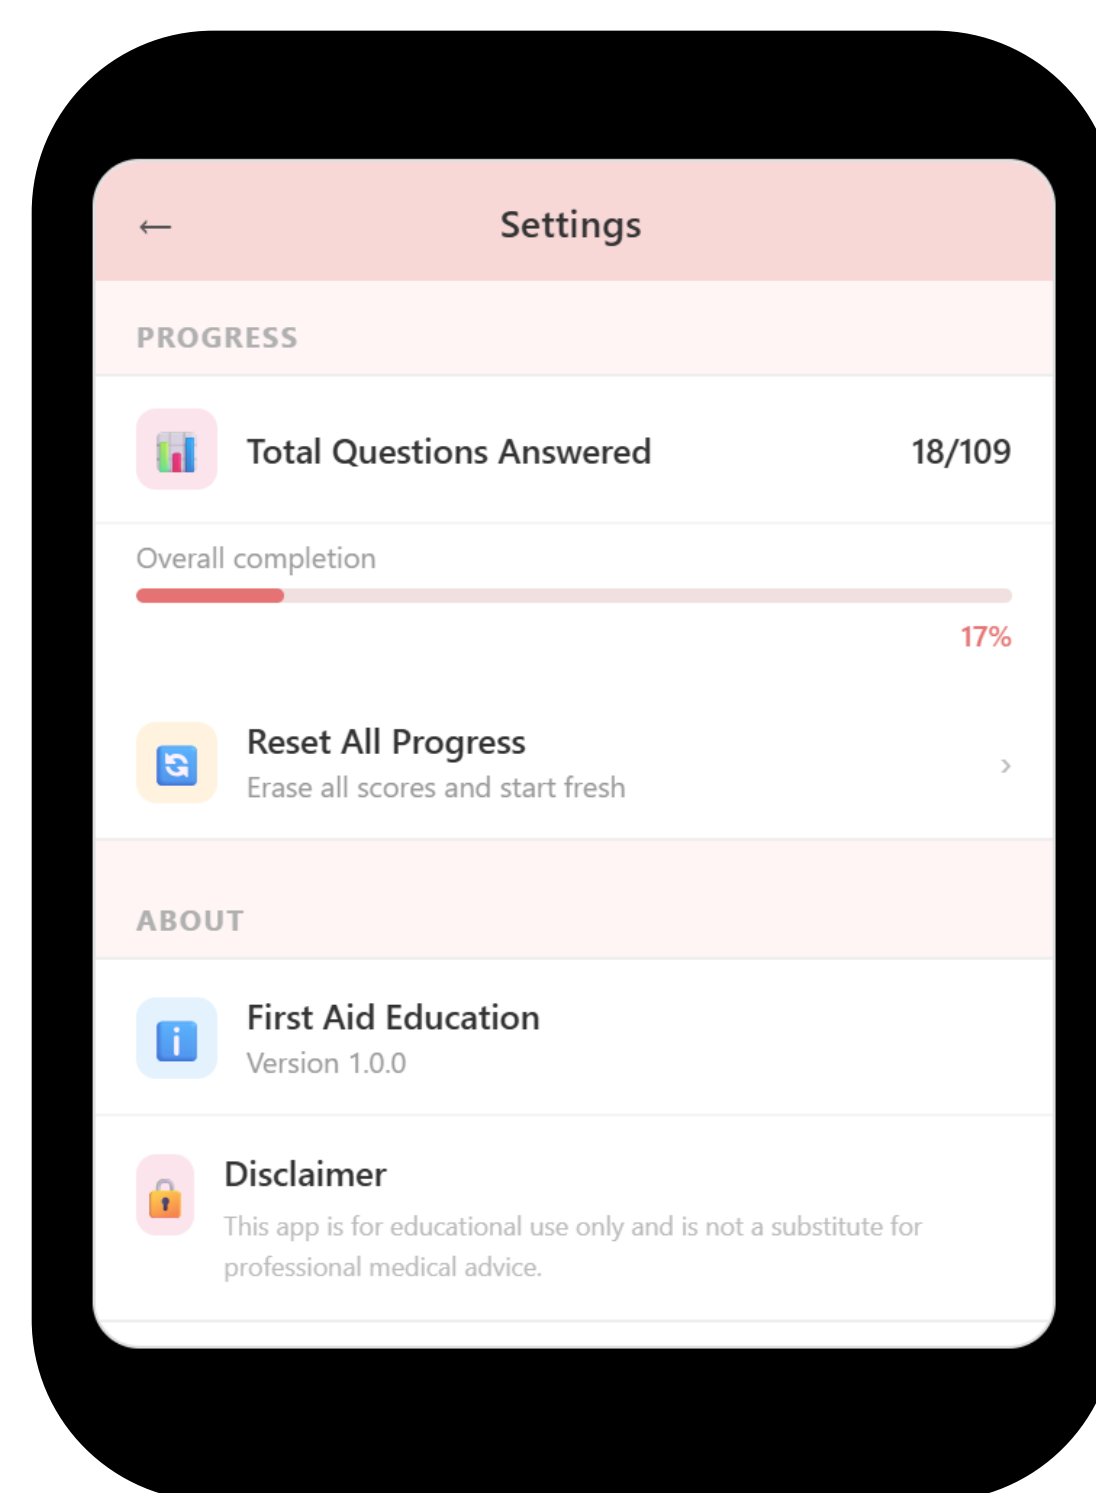

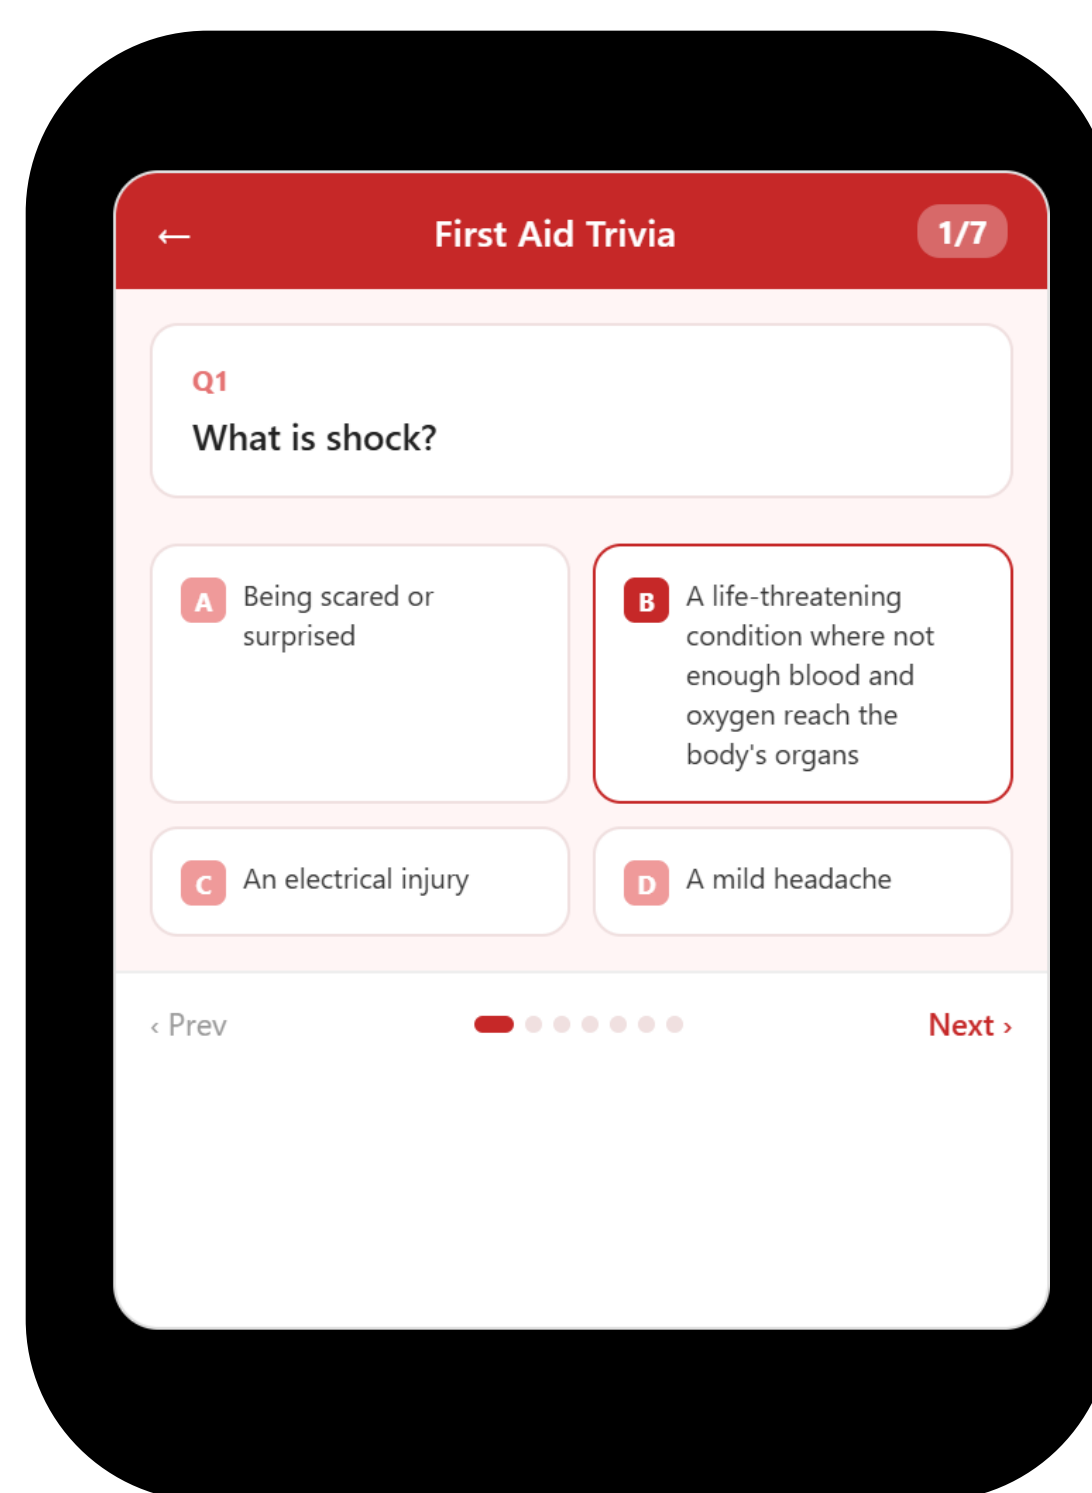

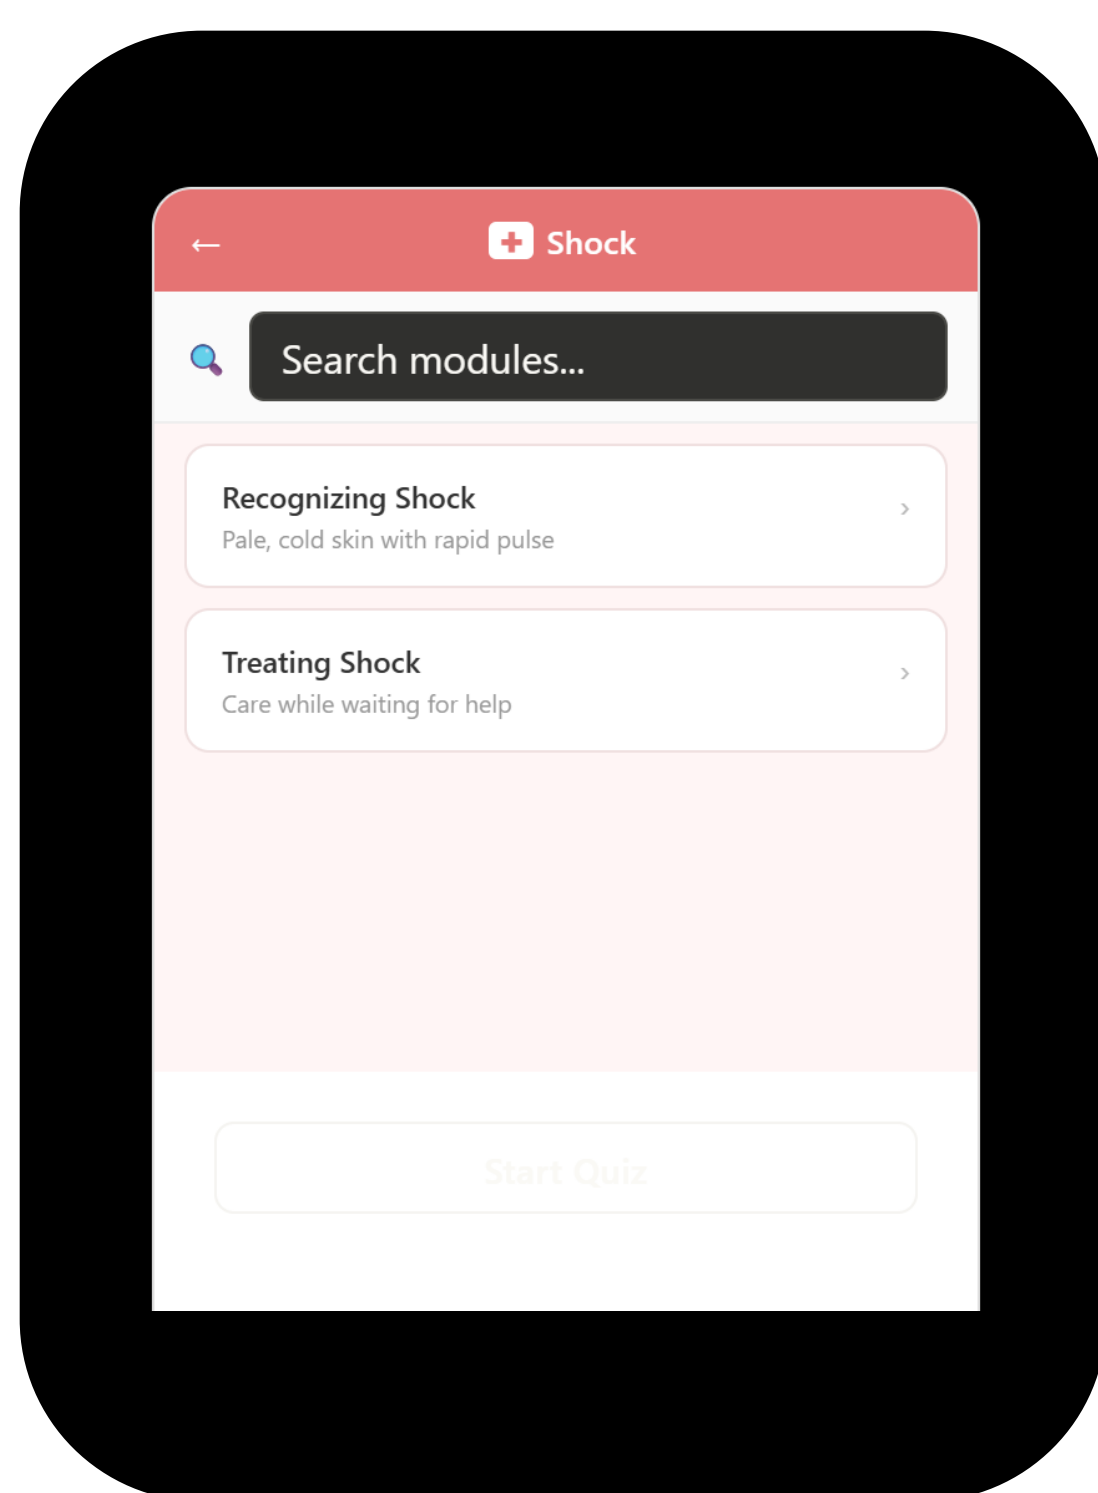

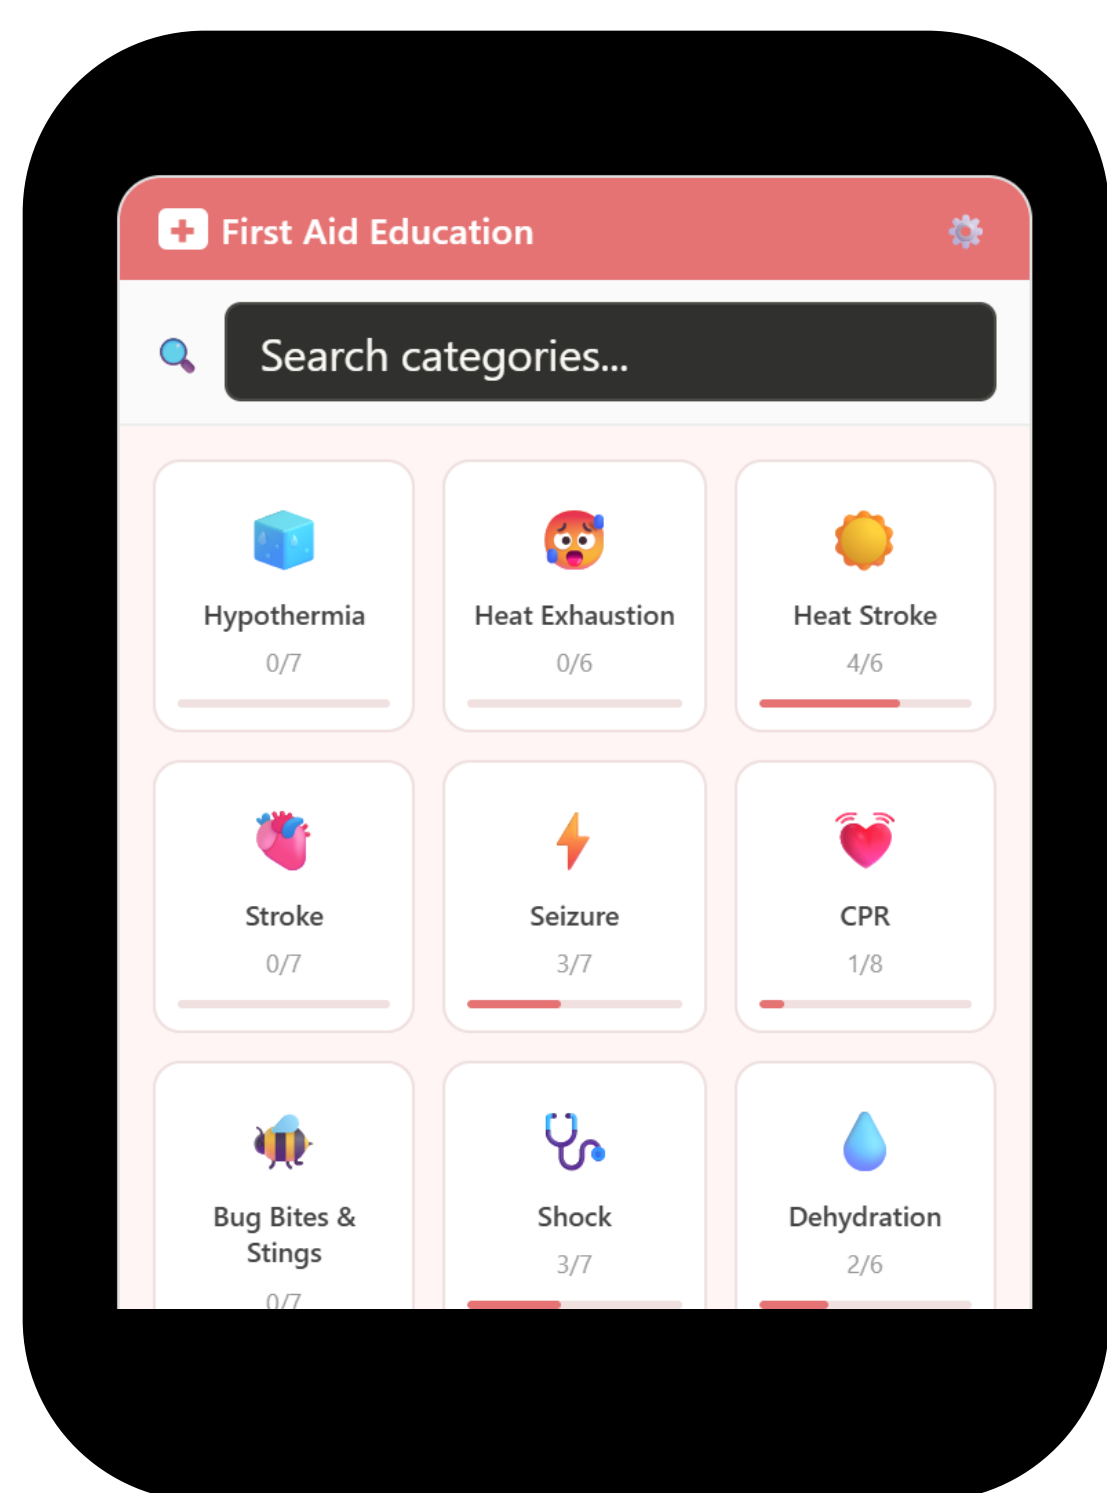

A gamified, accessible first aid learning app built for ALL ages and abilities using short sentences, videos, pictures, and interactive games to prepare anyone for real emergencies.

TARGET AUDIENCE

- Children
- Seniors
- People with Disabilities
- Caregivers
- General Public

KEY FEATURES

- First Aid Modules**
16 topics with step-by-step guides
- Text-to-Speech**
Hear every step read aloud clearly
- Smart Search**
Find any ailment instantly by keyword
- Accessibility Learning**
Picture & video display for all users
- Progress Tracking**
Motivational progress tracking
- Module Quizzes**
Easy access to live treatment demos

COMPETITORS

- Existing apps are not comprehensive
- Not geared for accessible learning

FUTURE EXTENSIONS

- Offline access
- Scenario based simulations
- Multiplayer leaderboards
- Learning streaks
