

William J. Martin

Department of Mathematical Sciences, Worcester Polytechnic Institute, Worcester MA 01609  
W: (508) 831-6764 office: (508) 831-5316 cell: upon request e-mail: martin@wpi.edu

---

**EDUCATION:**

Ph.D., Combinatorics & Optimization; 1992, University of Waterloo, Waterloo, Canada

M.A., Mathematics (with distinction); 1986, State University of New York at Potsdam

B.A., Computer Science and Mathematics; 1986, State Univ. New York at Potsdam

**PERSONAL:**

Date of Birth: 4 July 1962;

U.S. Citizen; Canadian citizen; married; two children.

**REGULAR POSITIONS HELD:**

**Professor**, Mathematical Sciences and Computer Science, Worcester Polytechnic Institute (July 2009 to present) Externally funded research, teaching, service.

**Associate Professor**, Mathematical Sciences and Computer Science, Worcester Polytechnic Institute (August 2000 to June 2009) Externally funded research, teaching, service.

**Associate Department Head**, Mathematical Sciences, Worcester Polytechnic Institute (July 2004 to June 2006) Administrative duties, managing the teaching mission of the department.

**Associate Professor**, Mathematics & Statistics, University of Winnipeg (July 1998 to Sept. 2001) Externally funded research, teaching, service.

**Assistant Professor**, Mathematics & Statistics, University of Winnipeg (Sept. 1993 to June 1998) Externally funded research, teaching, service.

**VISITING RESEARCH POSITIONS:**

**Long-Term Visitor**, ICERM (Institute for Computational and Experimental Research in Mathematics), Brown University (January–May 2014)

**Visiting Scholar**, Mathematical Sciences, University of Delaware (September–December 2013)

**Visiting Scholar**, Mathematics, Massachusetts Institute of Technology (July 2006 to June 2007)

**Visiting Associate Professor**, Center for Applied Cryptographic Research, University of Waterloo (July 1999 to July 2000)

**Visiting Assistant Professor**, Mathematics & Statistics, University of Vermont (Sept. 1992 to Sept. 1993)

**Visiting Lecturer, Postdoctoral Fellow**, Combinatorics & Optimization, University of Waterloo (May to Aug., 1992).

---

**Summer Research Associate**, Government Network Planning Center, AT&T Bell Laboratories, Holmdel, NJ (Summers 1986, 1987, 1988) Programming; some research in graph theory and optimization.

**RESEARCH INTERESTS:**

Applications of algebra and combinatorics to problems in computer science and mathematics. Structure of association schemes, especially the study of designs and codes within association schemes. Combinatorial methods in cryptography. Also: graph theory; computational complexity; graph algorithms and networks; algebra; topological methods in combinatorics.

**TEACHING EXPERIENCE:**

Courses delivered (for example, 3000 level represents a course aimed at 3rd year undergraduates):

**1000-2000 level**

Calculus  
 Linear Algebra  
 Discrete Mathematics  
 Number Theory  
 Combinatorics  
 Applied Algebra  
 Proofs in Contemp Math  
 Math of Decision Making

**5000 level**

Algebra, Linear Algebra  
 Association Schemes  
 Coding Theory  
 Discrete Mathematics I  
 Graph Theory  
 Hardness vs. Randomness  
 Topology  
 Numbers, Polynomials, Alg. Struct.

---

### 3000-4000 level

Advanced Calculus  
Modern Algebra  
Intro. Topology  
Linear Programming  
Discrete Optimization  
Game Theory  
Math. Discovery & Invention

### Individualized Reading Courses

Algebraic Geometry  
Cohomology  
Error-Correcting Codes  
Graph Algorithms  
Hyperelliptic Curve Cryptography  
Lie Groups and Lie Algebras  
Quantum Algorithms

## GRANTS:

### Awarded:

- National Science Foundation (co-PI): *Further Advancing the Northeast Combinatorics Network* NSF DMS, Awarded January 2019 (three years), \$39,000 (Joanna Ellis-Monaghan, PI / Julianna Tymoczko, PI)
- National Science Foundation (PI): *Association schemes and configurations in real and complex space* NSF DMS, (June 2018 to May 2023), \$150,000 (total \$163,776)
  - 2020 REU Supplement: \$6888 (Georgina Quinn)
  - 2021 REU Supplement: \$6888 (Ethan Washock)
- National Science Foundation (co-PI): *Advancing the Northeast Combinatorics Network* NSF DMS, Awarded January 2018 (one year), \$13,000 (Joanna Ellis-Monaghan, PI)
- National Science Foundation (PI): Workshop: *Systems of Lines: Applications of Algebraic Combinatorics* NSF DMS, Award # 1541272, \$25,000 (Randy Paffenroth, co-PI).
- National Science Foundation (co-PI): TWC:Small: *Towards Practical Fully Homomorphic Encryption* (Oct. 2013 to Sep. 2016) \$499,780. (B. Sunar, PI)
- National Security Agency (Steering Committee Member): *Conference Series: Discrete Mathematics Days in the Northeast* Sept. 2012 to April 2014. \$14,940 (preliminary budget) (Rosa Orellana, PI)
- Slovenian Research Agency (ARRS) (US Team leader): *US-Slovenia bilateral cooperation grant*. 2012-2013. 3920 euros. (K. Kutnar, PI)
- National Security Agency (PI): *Some problems in association schemes* (Jan. 2012 to Jan. 2014). \$78,377.
- National Science Foundation (co-PI): TC:Small: *Homomorphic Encryption for Cloud Privacy* (Aug. 2011 to Jul. 2013). \$312,888. (B. Sunar, PI)
- National Security Agency (PI): *Problems in cometric association schemes* (Jan. 2010 to Jan. 2012). \$67,959.
- National Science Foundation (co-PI): CT-ER: *Exploring Physical Functions for Lightweight and Robust Cryptography* (Sept. 2008 to Aug. 2010). \$149,797 (B. Sunar, PI)

- 
- National Security Agency (PI): *Problems in association schemes* (Jan. 2007 to Jan. 2009). \$59,000.
  - CIMPA (International Centre for Pure and Applied Mathematics, Nice, France): Summer School on SemiDefinite Programming Techniques in Coding Theory, Manila, Philippines
  - Worcester Polytechnic Institute Educational Development Council internal grant: “The Calculus Dialogues” \$5640 (with P. Christopher)
  - Slovenian Research Agency (ARRS) (participant): *Open problems in association schemes* 2006–2008. \$19,000.(A. Jurišić, PI)
  - National Security Agency (PI): Conference Grant *Discrete Mathematics Day at WPI*, 2005. \$1,500.
  - NSF (co-PI): Equipment Grant *Mathematical Sciences Computational Research Environment (SCREMS)*, 2005. \$125,328. (M. Humi, PI)
  - National Security Agency (PI): Conference Grant *Discrete Mathematics Day at WPI*, 2003. \$3,000.
  - National Science Foundation (co-PI): ITR:SI *Implementing Public-Key Cryptosystems for Secure Information Infrastructure* \$436,000 (Sept. 2001 to Sept. 2004). (B. Sunar, PI)
  - MITACS, a Canadian Network of Centres of Excellence, (Team member, on a team of twelve researchers): *Project in Elliptic Curve Cryptography and Algebraic Combinatorics*. Cdn \$291,000 per year (S. Vanstone, PI)
  - National Science and Engineering Research Council (PI): Individual Grant. Cdn \$48,500 (April 1997 to March 2001)
  - National Science and Engineering Research Council (PI): Individual Grant Cdn \$24,000 (April 1994 to March 1997)
  - National Science and Engineering Research Council (PI): Equipment Grant. Cdn \$16,000 (April 1996)
  - National Science and Engineering Research Council (co-PI): Equipment Grant. Cdn \$30,000 (April 1994)
  - University of Winnipeg Start-up grant (PI). Cdn \$9,176 (1993-4)

#### **RECENT SERVICE ACTIVITIES:**

- Committee on Appointments and Promotions, Worcester Polytechnic Institute, 2022-2025 (Co-chair 2023-2024)
- Chair, Program Committee, CanaDAM 2023, Winnipeg Manitoba, June 5-8, 2023

- 
- Member, Organizing Committee, Stinson66 – New Advances in Designs, Codes and Cryptography, Fields Institute, June 13-17, 2022
  - Search Committee, Department of Mathematical Sciences, Worcester Polytechnic Institute, 2022-2023
  - Member, Editorial Board, Journal of Combinatorial Designs
  - Member, Editorial Board, Bulletin of the Institute of Combinatorics and its Applications
  - Search Committee, Physics Department, Worcester Polytechnic Institute, 2019-2020
  - Committee on Appointments and Promotions, Worcester Polytechnic Institute, 2018-2019
  - Member, Steering Committee, Discrete Math Days in the Northeast
  - Organizing Committee, Algebraic Combinatorics: Spectral Graph Theory, Erdős-Ko-Rado Theorems and Quantum Information Theory, International Conference held June 23-27, 2014.
  - Discrete Mathematics Advisory Panel, National Security Agency, 2011-2013.
  - NSF panel member, Washington
  - Book proposal reviewer, Cambridge University Press.
  - Grant proposal reviewer, US National Security Agency, Canada NSERC, Belgium FWO, Austrian Science Fund, Israel Science Foundation.
  - Workshop proposal reviewer, European Science Foundation
  - Special session organizer, “Computer Algebra and Combinatorics” ASCM '05, Seoul Korea, December 2005.
  - Organizing committee chair, Discrete Mathematics Day at WPI (May 2003, September 2005, May 2010, April 2013, September 2015)
  - Arts and Science Summer Undergraduate Research Fellow Selection Committee, 2016
  - Committee on Appointments and Promotions, Worcester Polytechnic Institute, 2014-2017
  - Search Committee, Chemical Engineering Department Head, Worcester Polytechnic Institute, 2014-2015
  - Associate Department Head, Mathematical Sciences, Worcester Polytechnic Institute, July 2004 to June 2006.
  - Various department committees, Mathematical Sciences, Worcester Polytechnic Institute, each academic year.

---

## RESEARCH STUDENT SUPERVISION:

### Postdoctoral Fellows:

- Ralihe Raúl Villagrán Olivas (Ph.D. CINVESTAV-IPN, Mexico), 2023-
- Carolyn Mayer (Ph.D. Nebraska-Lincoln), 2018-20. [Now Senior Member of Technical Staff, Sandia National Labs]
- Sho Suda (Ph.D. Tohoku University, Japan), 2010. [Now on faculty at National Defense Academy of Japan]
- Junhua Wu (Ph.D. Delaware), 2008-9. [Now Assistant Professor, Mathematics, Lane College]
- Hajime Tanaka (Ph.D. Kyushu University, Japan), 2007. [Now Associate Professor, Graduate School of Information Sciences, Tohoku University, Japan]
- Jason Williford (Ph.D. Delaware), 2006-8. [Now Professor of Mathematics, University of Wyoming]

### PhD:

- Xiaoye Liang, Anhui University, PhD advisor Tatsuro Ito (November 2019 – November 2020)
- Brian Kodalen, WPI (2019)

### MSc:

- Corre Steele (project, Industrial Math, 2016) “*Popping Bubbles: Cryptanalysis of Homomorphic Encryption*”
- Benjamin Bunnell (project, 2016) “*Sublinear Time Algorithms and Their Applications, with an Emphasis on the Approximation of the Weight of a Minimum Spanning Tree*”
- Chao Li (thesis, Computer Science, 2015) “*Semidefinite programming, binary codes and a graph coloring problem*”
- Aaron Nahabedian (project, Industrial Math, 2010) “*A Primal-Dual Approximation Algorithm for the Concurrent Flow Problem*”
- Jonathan Adler (thesis, Applied Mathematics, 2008) “*Graph Decompositions and Monadic Second Order Logic*”
- Ronald Lesniak (project, Industrial Math, 2006) “*Maximum Distance Separable Codes in RAID 6 Architectures*”
- Serdar Pehlivanoglu (thesis, CS, 2005) “*Rijndael Circuit-Level Cryptanalysis*”

### Undergraduate (Summer):

Tara Taylor, Cindy Lau, Nick LeCompte, Will Owens, Justin Kahn, Eric Reich, Corre Steele, Georgina Quinn, Connor Anderson, Ethan Washock, Anna Balin, Cameron Norton, Andrew Lee.

---

## LECTURES:

*Recent and Notable Invited Lectures:* (contributed and older lectures omitted)

- 5-day minicourse “Cometric association schemes and scaffolds”. Centre de recherches mathématiques (CRM), Montréal, August 1–5, 2022.
- gap in data
- Plenary speaker, “ $Q$ -Polynomial association schemes and the nearest neighbor graph”, International Workshop on Algebraic Combinatorics, Anhui University, Hefei China, October 28-31, 2016.
- Discrete Mathematics Seminar, “A Tale of Two Design Theories”, University of Delaware, March 7, 2016 (The same talk was given, on invitation, in the Brandeis University Combinatorics Seminar, February 23, 2016.)
- Opening plenary speaker, “Some problems arising in quantum information theory”, CanaDAM, Canadian Conference on Discrete and Algorithmic Mathematics, University of Saskatchewan, Saskatoon SK Canada, June 1-4, 2015.
- Expository talk entitled “Quantum information theory”, BIRS workshop Mathematics of Communications: Sequences, Codes and Designs (15w5139), Banff AB Canada, January 25-30, 2015.
- Invited speaker (40 min): “Nice Euclidean configurations from incidence matrices and characters of designs”, Workshop on Algebraic Design Theory and Hadamard Matrices, Lethbridge, Alberta, July 10, 2014
- Tutte seminar (50 min, invited): “Some problems concerning finite point sets on the unit sphere” Department of Combinatorics & Optimization, University of Waterloo, June 20, 2014.
- Invited session speaker (30 mins): “Graph homotopy, ideals of finite varieties and a surprising duality”. Modern Trends in Algebraic Graph Theory, Villanova University, June 3, 2014
- Rocky Mountain Algebraic Combinatorics Seminar “Almost orthogonal vectors in Euclidean space”. Colorado State University, April 25, 2014.
- Colloquium: “Promise, progress, and problems in homomorphic encryption”, Department of Electrical and Computer Engineering, University of Maryland, College Park, April 8, 2014
- Invited (30 min): “Ideals of polytopes and graph homotopy”, BruceFest 2014, Gainesville, FL, March 25, 2014.
- Colloquium: “Almost orthogonal vectors in Euclidean space”. Department of Econometrics and Operations Research, Tilburg University, March 4, 2014.

- 
- Invited (50 min): “Girth and dual girth parameters in polynomial association schemes”. Colloquium on Galois Geometry to the memory of Frederic Vanhove, One day colloquium on Galois Geometry in Ghent, Belgium, February 28, 2014.
  - 37th Australasian Conference on Combinatorial Mathematics and Combinatorial Computing, University of Western Australia, December 9-13, 2013.
  - International Workshop on Algebraic Combinatorics, Hebei Normal University, Shijiazhuang, Hebei, China, November 17-21, 2013.
  - Rocky Mountain Mathematics Consortium Summer School 2013 (ten lectures), University of Wyoming, June 17-28, 2013.
  - Workshop on Algebraic Combinatorics, Shanghai Jiao Tong University, Shanghai, September 15, 2011.
  - Graphs, Designs and Algebraic Combinatorics 2011, University of Regina, Regina, SK, July 20, 2011.
  - IPM20, Tehran, Iran, May 19, 2009
  - Geometric and Algebraic Combinatorics 4, Oisterwijk, the Netherlands, August, 2008
  - 2004 Com2MaC Conference on Association Schemes, Codes and Designs, Pusan National University, Busan, Korea (July 19 - 23, 2004).

#### **DOCTORAL THESIS COMMITTEES:**

- Kexin Jin, Univ Illinois Urbana-Champaign, external examiner (November 9 2023)
- Guillermo Carlo Nuñez Ponasso, Worcester Polytechnic Institute, department committee member (August 1 2023)
- U Delaware Himanshu Gupta, University of Delaware , external examiner (March 21 2023)
- Pavel Shuldinger, University of Waterloo, external examiner (January 5 2023)
- Roghayeh Maleki, University of Regina (2022), external examiner
- Jesse Lansdown, University of Western Australia (2020), external examiner
- Hanlin Zou, University of Delaware (2020), external examiner
- Matthew McGinnis, University of Delaware (2018), external examiner
- Gavin King, University of Wyoming (2017), external examiner
- Weiqiang (Ricky) Li, University of Delaware (2015), external examiner
- Ghaith Hammouri, Worcester Polytechnic Institute (2009), extra-departmental committee member

- Gunnar Gaubatz, Worcester Polytechnic Institute (2007), extra-departmental committee member
- Adam Woodbury, Worcester Polytechnic Institute (2001), extra-departmental committee member
- Xioamin Bao, University of Manitoba (1998), external examiner
