Week 6: Reading and Exercises

Reading

Please read Sections 6.2 through 6.4 this week. You will have noticed that concepts are now taking precedence over procedures. So I again encourage you to read carefully, pause to think now and then, and always have a pad of paper and pencil nearby to work out the details which may be omitted in the text.

Practice Exercises

NOTE: Do not hand in.

Here are some practice problems to work on at home. As you know, if you plan to do well in this course, it is very important to practice many problems of each type, **not** just the ones submitted for credit.

If you have any questions about these problems, please discuss them in conference or come see me.
