

Week 2: Reading and Exercises

Reading

Please read Chapters 3 and 4 in the text in time for class on Monday, September 10th.

Practice Exercises

Now that you've mastered the simplex method, your goal is to understand the twists and turns, the various problems that arise when we try to use it in practice.

In Chapter 3, please work through exercises 3.6 and 3.7 as you read the text. In Chapter 4, try problems 4.9 and 4.10. Consider Problem 4.6 as you prepare to handle more theoretical questions later in the course.
